

Noto peninsula 6 days 2022

Tour map

Itinerary

Noto Peninsula, situated in the middle of mainland Honshu, is our newest cycle touring destination in Japan. The region offers a perfect opportunity for rural cycling and experiencing all the cultural attractions you expect of Japan, from heritage sites to kimono weaving! Almost the entire peninsula has been recently registered as agricultural heritage by UNESCO for the long-established methods of fishing and cultivation activities, which you can observe from the saddle of your bike. The landscapes formed by the rich history tracing back to the feudal times still remain today, and that's what makes the region a culturally interesting ground for overseas visitors. The 6 days itinerary allows ample time to fit in non cycling activities, and if you want more physical challenge the 5 day extension option is available for you.

Detailed itinerary

Day 1 Meeting at Kanazawa

We meet at 5:00pm at our hotel in Kanazawa, the gateway to Noto Peninsula. After an introductory meeting and bike fitting, we take a stroll through the city and enjoy a welcome dinner in town. Kanazawa is home to traditional high cultures and activities, such as handicrafts, tea ceremony, Noh theatre and Kaga cooking, offering you plenty of options for cultural experiences. We recommend you arrive a day or so earlier to explore Kanazawa. One of the most beautiful Japanese gardens, Kenrokuen Garden is not to be missed if you are there. Kanazawa can be reached in approximately 3.5 hours by express train from Osaka Kansai International Airport, 3 hours by bullet train from Tokyo.

Day 2 Kanazawa to Togi

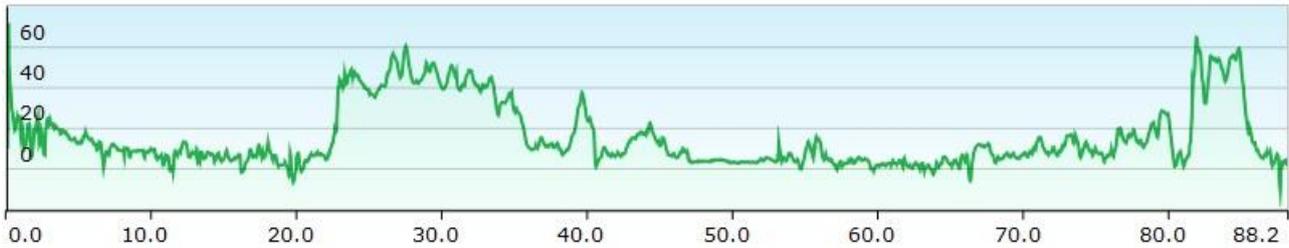

This morning we cycle out to join the cycling path near the coast, which leads us onto the popular Chirihama Beach driveway. Here you can cycle comfortably on the hard packed sand beach for about 8km. After having lunch at restaurant by the beach, we continue on the coastal cycling path to Togi. Scenery is ever changing from rice field to rugged coastline, we cycle through some small fishing villages too. Sunset view at Hatagoiwa rocks will be a real treat at the end of the day.

In the morning, be sure to check out the world's longest bench on the beach in Togi. Today we follow the beautiful coastlines on quiet back roads, lined by traditional wooden houses with black tiled roofs – as if we are cycling through a movie set! Terraced rice fields are another noticeable feature of this region, and today we pass by a couple of them. The Kadomi heritage house is also worth a stop. Here you can view the interior of wooden houses you have cycled pass so far. Although the coastal journey to Wajima is challenging, the oceanic views from the roads are rewardingly fantastic!

Day 4 Wajima to Suzu

This morning you have an option to visit the Wajima Morning Market or work your decorative skills on the lacquer chopsticks. For 1,500 yen, you can design your own chopsticks with gold powder and take them home as souvenirs! The market is filled with stalls selling local produce from the land as well as the sea and is a good shopping opportunity if you wish to purchase any lacquer ware here. Today we stay on the coast throughout the day, checking out Senmaida (1,000 rice paddies on one slope) and many traditional salt works. A few salt works are spread out along the coastline and are still carrying out the solar evaporation method from 400 years ago. The salt works are free to observe, and you can also try spraying seawater which takes years to master! As we approach the tip of the peninsula, the rest of the day leaves us cycling in the peaceful country setting.

We will complete the ride at our accommodation in Wakura Onsen, one of the best high-class hot spring resorts in Japan. About accommodation

We choose Ryokan (traditional Japanese inn) as much as possible to support local tourism and economy. Ryokan is traditional Japanese style inns often run by family and in many cases, it has Onsen (natural hot springs) on site. You will sleep on a futon on the tatami floor in ryokan. It's definitely the best choice if you want to experience authentic Japanese accommodation. However, there are a few things to remember before staying there.

Room in Ryokan

Yukata

Onsen hot spring

Washing space

- Traditional Japanese room does not have bed, instead, it has Futon mat on "Tatami" straw weaving floor to sleep on. The photo is how typical Ryokan room looks like.
- Most of the accommodation provide "Yukata" traditional night robe, you can wear it to hot spring and restaurants on site. You don't have to carry your night clothing as much if you enjoy Yukata.
- Most of Ryokan provide nice public Onsen hot spring to share, then some of the rooms do not have their own shower and bath. Public onsen has washing place where you can wash yourself.
- Some of Ryokans in remote area do not have toilet in each room. They have public toilet on site.
